

Final Year Group Project – Group,
Department of Electronics and Telecommunication Engineering,
University of Moratuwa.
01.10.2022

Dr. Peshala Jayasekara,
Project Supervisor, Senior Lecturer,
Department of Electronic and Telecommunication Engineering,
University of Moratuwa

Dear Sir,

Responsibility of FLIR M232 Thermal Camera

The FLIR M232 Thermal Camera obtained for the department is required for our final year project (FYP) for the purpose of data collection. We hope to collect maritime thermal data near the Galle harbor. For this purpose, it is required that we take the camera out of university premises for a maximum period of one month. We kindly request to grant permission to take the camera into our possession and we will take full responsibility of the camera for the period during which it is in our possession.

Thank you,
Yours sincerely,

Y.S Ginige
